

Dive Into Savings With Cozumel's Fall Dive Packages

COZUMEL, Mexico: Cozumel is offering fall dive adventure packages that include great perks like discounted hotel rates, free breakfast, cocktails on the house, evening dives, spa treatments and more! It's your turn to experience why Cozumel divers return to the island year after year.

"The divers who come to our island become part of the Cozumel family," said Raul Marrufo, director of Cozumel Promotion Board. "The divers come back year after year not only to experience the largest reef system in the western hemisphere, but to enjoy amazing hotels, bask in the rays of the island sun and enjoy the laid back atmosphere."

Cozumel is ringed by more than 40 dive sites teeming with tropical fish and a kaleidoscope of multi-colored coral reefs.

The exceptionally clear aquamarine waters are virtually transparent, providing divers with up to 200 feet of visibility.

Cozumel's coral reefs are sprinkled with limestone caves, tunnels, and rare trees of black coral. With more than 30 reefs, ranging in depth from 15 to 90 feet, divers will witness marine flora and fauna - moray eels, sea turtles, nurse sharks, giant anemone, great groupers, queen angel, hermit crab, parrotfish, giant sponges, cactus coral, gorgonian fans, multicolored globes of brain coral, and the "Splendid Toad Fish," endemic to Cozumel.

Act now! Packages are good for travel through December 2009. Here's a glimpse into your underwater future:
